

# VBC Release Highlights

January 20, 2023

Practice Insights<sup>SM</sup> is pleased to announce updates in the application to support the Merit-Based Incentive Payment System (MIPS).

## MIPS Quality Measures Dashboard

The MIPS Quality Measures Dashboard has been updated to reflect the below refinements for:

Measure	Update	Practice Impact
MIPS 130: Current Medication Documentation	<p>A refinement has been made to better capture “Reconciled” when clicked while reconciling medications. “Reconciled” and “Verify” are attributed for numerator credit.</p> <p><b>NOTE:</b> This refinement will be retroactive to 01/01/2022.</p>	Practices may notice an increase in the numerator due to this update.

## Status of Dashboard Updates for 2022

CMS releases updates to the quality measure specifications annually for the MIPS program and bi-annually for the OCM program. These measure specifications have been reviewed, and Practice Insights is working on the required technical updates to align with the revised requirements. McKesson will continue to notify practices once measures have been updated based on the current 2022 requirements. The measures listed below either have no 2022 update required or have been updated.
