Status of Dashboard Updates for 2022

CMS releases updates to the quality measure specifications annually for the MIPS program and bi-annually for the OCM program. These measure specifications have been reviewed, and Practice Insights is working on the required technical updates to align with the revised requirements. McKesson will continue to notify practices once measures have been updated based on the current 2022 requirements. The measures listed below either have no 2022 update required or have been updated.
