

VBC Release Highlights

November 4, 2022

Practice InsightsSM is pleased to announce updates in the application to support the Merit-Based Incentive Payment System (MIPS) and the Elevated Pain Worklist.

MIPS Quality Measures Dashboard

The MIPS Quality Measures dashboard will be updated with the following:

- Technical refinements were made to MIPS #110: Influenza Immunization to include Date Received as Numerator Credit. Practices will not see any changes in the numerator.
- Removal of PIMSH #3 and PIMSH #11 from the dashboard. These measures were retired for 2022 MIPS Reporting.

Elevated Pain Worklist

Technical refinements were made to better capture non-E/M visit related pain documentation in the Elevated Pain Worklist.

Status of Dashboard Updates for 2022

CMS releases updates to the quality measure specifications annually for the MIPS program and bi-annually for the OCM program. These measure specifications have been reviewed and Practice Insights is currently working on the required technical updates to align with the revised requirements. McKesson will continue to notify practices once measures have been updated based on the current 2022 requirements. The measures listed below either have no 2022 update required or have been updated.
