

VBC Release Highlights

December 13, 2024

Practice InsightsSM is pleased to announce updates in the application to support the Merit-Based Incentive Payment System (MIPS), Enhancing Oncology Model (EOM), and Advance Care Planning (ACP).

EOM Quality Measures Dashboard

New Quarters Available: Starting Monday, Dec. 16, 2024, you can access Q2 and Q3 2024 data by selecting these options from the Time Period drop-down menu on the dashboard.

Advance Care Planning Dashboards

Starting Monday, Dec. 16, 2024:

- **Patient Types Filter Update:** The “OCM Patients” option will be removed from the Patient Types filter on all Advance Care Planning dashboards as the OCM program has ended. A new “EOM Patients” option will be added, allowing practices to focus on Advance Care Planning workflows specifically for EOM patients.
- **New Quarters Available:** Access the final Q3 2024 data by selecting the 2024 Q3 option from the Time Period drop-down menu on the Advance Care Planning Performance Dashboard and Advance Care Planning Activities Dashboard.

Elevated Pain Dashboard

Patient Types Filter Update: Starting Monday, Dec. 16, 2024, the “OCM Patients” option will be removed from the Patient Types filter as the OCM program has ended. A new “EOM Patients” option will be added, allowing practices to focus on Pain Care workflows specifically for EOM patients.

A patient is defined as an EOM patient if their VBC Care Plan program name is selected as “Enhancing Oncology Model”, with an enrolled date documented, and if the patient does not have an unenrolled date documented.

Status of Dashboard Updates for 2024

CMS releases updates to the quality measure specifications annually for the MIPS program. These measure specifications have been reviewed, and Practice Insights is working on the required technical updates to align with the revised requirements. McKesson will continue to notify practices once measures have been updated based on the current 2024 requirements. The measures listed below either have no 2024 update required or have been updated.
