Problems & ICD-10 Usability Update

Over the course of the next several months, the Clinical Profile > Problems tab will be updated with an improved ICD-10 result list for commonly used problems. Users can expect to see more clinically appropriate ICD-10 codes displaying for those problems. This new content does not impact previous charting on existing patients.

Some problems will require greater specificity with ICD-10 codes and those options will result in the list to choose. See [Appendix A](#) for specific information on Problems and ICD-10 codes.
