

# VBC Release Highlights

April 4, 2025

Practice Insights<sup>SM</sup> is pleased to announce updates in the application to support the Merit-Based Incentive Payment System (MIPS).

## MIPS Quality Measures Dashboard

Starting Monday, April 7, 2025:

- The MIPS Quality Measures dashboard will be updated with the 2025 eCQM Value Sets and 2025 Benchmark files.
- MIPS #104: Prostate Cancer: Combination Androgen Deprivation Therapy for High Risk or Very High Risk Prostate Cancer will be removed from the dashboard for 2025.
- MIPS #452: Patients with Metastatic Colorectal Cancer and RAS (KRAS or NRAS) Gene Mutation Spared Treatment with Anti-epidermal Growth Factor Receptor (EGFR) Monoclonal Antibodies will be removed from the dashboard for 2025.

---

## Status of Dashboard Updates for 2025

CMS releases updates to the quality measure specifications annually for the MIPS program. These measure specifications have been reviewed, and Practice Insights is working on the required technical updates to align with the revised requirements. Ontada will continue to notify practices once measures have been updated based on the current 2025 requirements.
