

# VBC Release Highlights

April 19, 2024

Practice InsightsSM is pleased to announce updates in the application to support the Merit-Based Incentive Payment System (MIPS) and Advance Care Planning (ACP).

## MIPS Quality Measures Dashboard

Starting Monday, April 22, 2024, you can view data from Q1 2024 using the **Time Period** drop-down on the MIPS Quality Measures dashboard.

---

## Advance Care Planning Dashboards

Starting Monday, April 22, 2024, you can view data from Q1 2024 using the **Time Period** drop-down on the Advance Care Planning Performance and Advance Care Planning Activities dashboards.

---

## VBC Navigation Summary Dashboard

There will be two, new columns in the VBC Navigation Summary dashboard to provide insight into patients who have chosen not to share their sociodemographic data within iKnowMedSM Generation 2:

1. **Patient Opts Out of Sociodemographic Data Sharing:** This column will display a “Yes” answer to indicate a patient has opted out of sharing their sociodemographic data.
  2. **Patient Opts Out of Sociodemographic Data Sharing Date:** This column complements the first one by providing the date on which a patient opted out of sharing their sociodemographic data.
- 

## Status of Dashboard Updates for 2024

CMS releases updates to the quality measure specifications annually for the MIPS program. These measure specifications have been reviewed, and Practice Insights is working on the required technical updates to align with the revised requirements. McKesson will continue to notify practices once measures have been updated based on the current 2024 requirements. The measures listed below either have no 2024 update required or have been updated.

Measure	Description
<b>MIPS Quality Measures Dashboard</b>	
#128	BMI (This measure is no longer a MIPS Traditional Measure)
#130	Current Medications
#134	Preventive Care and Screening for Depression and Follow-Up Plan
#374	Closing the Referral Loop
#462	Bone Density Evaluation for Patients with Prostate Cancer and Receiving Androgen Deprivation Therapy
PIMSH#1	Advance Care Planning in Stage 4 Disease
PIMSH#2	Utilization of GCSF in Metastatic Colon/Rectal Cancer (Inverse Measure)
PIMSH#4	Patient-Reported Pain Improvement
PIMSH#9	Supportive Care Drug Utilization in the Last 14 Days of Life (Inverse Measure)
PIMSH#10	Hepatitis B Serology Testing for Prophylactic Treatment Prior to Receiving Anti-CD20 Targeting Drugs
PIMSH#15	Antiemetic Therapy for Low-and-Minimal-Emetic Risk Antineoplastic Agents in the Infusion Center-Avoidance of Overuse (Inverse Measure)
PIMSH#16	Appropriate Antiemetic Therapy for High-and Moderate-Emetic-Risk Antineoplastic Agents in the Infusion Center
