

Value-Based Care Release Notes

January 27, 2026

Practice Insights is pleased to announce updates in the application to support the Merit-Based Incentive Payment System (MIPS) and Enhancing Oncology Model (EOM).

MIPS Quality Measures Dashboard

The MIPS Quality Measures Dashboard will be updated to reflect the following refinement(s):

Measure	Update	Practice Impact
MIPS 144: Pain Care Plan	Technical fix implemented to ensure patients who received only oral chemotherapy are not assessed for denominator credit.	Practices will notice a shift in the Denominator and/or Numerator.
PIMSH 4: Patient Reported Pain Improvement	Technical fix implemented to ensure new episodes do not begin after December 1st; there is not enough time allotted for the provider to assess improvement. Previously, denominator credit was attributed without allowing ample time for the provider to meet the numerator.	Practices will notice a shift in the Denominator, Denominator Exclusion, and Numerator.

MIPS Promoting Interoperability Dashboard

The MIPS Promoting Interoperability Dashboard will be updated to reflect the following refinement(s):

Measure	Update	Practice Impact
Location Filter	Technical fix to re-enable location filter for dashboard	Practices will see the correct numerator/denominator/performance when using the location filter.

EOM Performance Measure Dashboard

The EOM Performance Measures Dashboard will be updated to reflect the following refinement(s):

Measure	Update	Practice Impact
EOM-4B: Pain Care Plan	Technical fix implemented to ensure patients who received only oral chemotherapy are not assessed for denominator credit. EOM-4B will now display the same performance data as MIPS 144.	Practices will notice a shift in the Denominator and Numerator.

Status of Dashboard Updates for 2026

CMS releases updates to the quality measure specifications annually for the MIPS program. These measure specifications have been reviewed, and Practice Insights is working on the required technical updates to align with the revised requirements. Ontada will continue to notify practices once measures have been updated based on the current 2025 requirements.

Please note that this list reflects updates for 2025. Revisions to the 2026 measures are currently pending.

Measure Number	Description
MIPS Quality Measures Dashboard	
MIPS #001	Diabetes Hemoglobin A1c (HbA1cc) Poor Control (>9%) (Inverse Measure)
MIPS #047	Advance Care Plan
MIPS #130	Current Medications Documentation
MIPS #134 eCQM	Preventive Care Screening: Screening for Depression and Follow Up Plan
MIPS #134 CQM/Registry	Preventive Care Screening: Screening for Depression and Follow Up Plan
MIPS #143	Pain Intensity Quantified
MIPS #144	Pain Care Plan
MIPS #226	Tobacco Screening and Cessation
MIPS #236	Controlling High Blood Pressure
MIPS #238	Use of High-Risk Medications in Older Adults (Inverse Measure)
MIPS #374	Closing the Referral Loop
MIPS #450	Appropriate Treatment for Patients with Stage I (T1c) III Her2 Positive Breast Cancer
MIPS #451	RAS (KRAS & NRAS) Testing Performed for Patients with Metastatic Colorectal Cancer who Receive Anti-EGFR Monoclonal Antibody Therapy
MIPS #453	Proportion Receiving Chemotherapy in the Last 14 Days of Life (Inverse Measure)

Measure Number	Description
MIPS #457	Percentage of Patients who Died from Cancer Admitted to Hospice for Less than 3 Days
MIPS #462	Bone Density Evaluation for Patients with Prostate Cancer and Receiving Androgen Deprivation Therapy
MIPS #487	Screening for Social Drivers of Health
PIMSH #1	Advance Care Planning in Metastatic Disease
PIMSH #4	Patient-Reported Pain Improvement
PIMSH #9	Supportive Care Drug Utilization in the Last 14 Days of Life (Inverse Measure)
PIMSH #10	Hepatitis B Serology Testing and Prophylactic Treatment Prior to Receiving Anti-CD20 Targeting Drugs
PIMSH #13	Proportion of Stage IV nsNSCLC Patients Tested for Actionable Biomarkers and Received Mutation-Targeted Therapy
PIMSH #15	Antiemetic Therapy for Low-and Minimal-Emetic-Risk Antineoplastic Agents in the Infusion Center-Avoidance of Overuse (Inverse Measure)
PIMSH #16	Appropriate Antiemetic Therapy for High-and Moderate-Emetic-Risk Antineoplastic Agents in the Infusion Center
PIMSH #17	Utilization of Prophylactic GCSF for Cancer Patients Receiving Low-Risk Chemotherapy (Inverse Measure)
PIMSH #18	Resolution or Improvement of a Health-Related Social Need
EOM Performance Measures Dashboard	
EOM-4A	Pain Intensity Quantified
EOM-4B	Pain Care Plan
EOM-5	Preventive Care Screening: Screening for Depression and Follow Up Plan
