Status of Dashboard Updates for 2026

CMS releases updates to the quality measure specifications annually for the MIPS program. These measure specifications have been reviewed, and Practice Insights is working on the required technical updates to align with the revised requirements. Ontada will continue to notify practices once measures have been updated based on the current 2025 requirements.

Please note that this list reflects updates for 2025. Revisions to the 2026 measures are currently pending.
